A WORLD IN CRISIS

Capitalism faces a deep structural crisis driving inequality, ecological collapse, political decay and imperialist wars, as U.S. decline, financialization and neofascism threaten peoples, democracy and the planet.

THERE IS A WAY OUT

Political organizations are building international coordination through the IPA, uniting struggles across regions to debate, educate, and develop a dynamic socialist platform to confront capitalism and humanity's crises.

PROGRAMMATIC PLATFORM

The IPA program advances anti-capitalist, anti-imperialist, feminist, anti-racist, and ecological struggles to build popular democracy, social justice, sovereignty, and post-capitalist alternatives centered on dignity, equality, and life.

OUR COMMON AGENDA: What is to be done?

The IPA calls for unity through concrete international networking, mass mobilization and political education to build popular power capable of defeating capitalism and opening a path to human emancipation.

ANTI-IMPERIALISM

The IPA leads a permanent anti-imperialist campaign confronting US-led hyper-imperialism through education, mobilization and solidarity, linking struggles worldwide to expose war, sanctions, occupation and build peoples' power.
