## Call for action: The genocide never stopped in Palestine

On the 29th of November 2025, the world commemorates the international day of solidarity with Palestine within a context of ongoing genocide in Gaza, extrajudicial executions by occupation forces and armed settlers in the West Bank and Jerusalem as expressions of ethnic cleansing, the targeting of Palestinian refugee camps including most recently Ain al-Hilweh camp, and daily aggressions against Lebanon, Syria, and other countries in the region.

All these atrocities are made possible only through the enormous support of US imperialism and the complicity of its allies and collaborationist regimes in the region. Besides, the UN Security Council resolution on Gaza regarding the so-called “Peace Council” attempts to impose guardianship through the granted transitional and sovereign governing powers that reproduce the occupation in a new form, marginalize the Palestinian role, and strip authority from the United Nations itself.

Therefore, the International Peoples Assembly urgently calls on all struggling forces—political organizations, human rights groups, trade unions, and civil society—to mobilize immediate action in solidarity with Palestine: organize demonstrations at Israeli and US embassies, send communications to international bodies demanding accountability, criminalize all forms of trade and diplomatic ties with the occupying entity, and center the cause of Palestinian prisoners.

The Palestinian people—supported by the free forces of the world and inspired by historical anti-colonial liberation struggles—will continue their march toward liberation, with the Prisoners’ Movement standing as an essential vanguard proving both the true fascist nature of the occupying entity and the absolute legitimacy of the struggle for its defeat.
